

SVKM'S NMIMS Deemed-to-be University

School of Science | Navi Mumbai Campus

Analytics Cell

Date: 3rd October'20

Time: 4pm

Resource Persons: Mr. Chetan Singhal

Program Coordinator:

Objective of the Event: The topic for the talk was Applied Statistics. With around almost no time left to start preparing for a new battle line, that is entrance examinations for higher studies

About the Event: The QnA was aimed towards discussion about applied statistics, higher education and opportunities after undergrad school. The discussion was an enlightenment about the opportunities and scope of data science. Whether, from being a machine learning engineer to being a data analyst, the session was be beneficial to all the audience who aspire to pursue something which has a strong foundation of statistics, mathematics and coding

Outcomes: When students are applying for graduate school, they are perplexed as to what they should take up as their major or what schools to apply or whether to study in India or abroad. This session definitely made it easier to navigate through myriad of options and make a decision. The QnA session was definitely an eye opener for the students of SYBsc and it was as informative as it could get.

Participants: Students from SOS
