

## **JAL SHAKTI ABHIYAN POSTER MAKING ACTIVITY**

The student council of STME celebrated Jal Diwas on the 22<sup>nd</sup> of July ,2019. The executive members of the student council as well as the class representatives of each of the classes took part in this activity.

Jal Shakti Abhiyan is a campaign initiated by the Government of India to address the rising necessity of spreading awareness in the public concerning the importance and conservation of our water resources. The water shortage crisis of these past few months has served as a kind of a wakeup call for our country and especially those parts where water was already scarce. Diligent conservation and widespread awareness are the need of the hour. AICTE understands the need to inculcate a sense of responsibility towards the environment within the next generation of engineers. The activity was a step towards making the students face the growing concerns in regards to water scarcity and the problems it would pose in the future.

The students were divided into groups and were tasked with making posters about water conservation and its significance. NMIMS, Navi Mumbai is forever determined to organize similar events which allow our students to showcase their creative skills and their concerns towards our surroundings and environment
