

INTRA COLLEGE TABLE TENNIS TOURNAMENT

The Sports Committee of SVKM's NMIMS Navi Mumbai Campus, organized the first intra college sports event of the session 2019-20 on 13th of July, 2019. The event was a great success, for the amount of active participation it had from various schools at NMIMS, Navi Mumbai.

The event which had numerous participants which played three rounds of 11 point each was a tough competition in itself as only winning two rounds of the whole total landed you a place in semifinal and then the finals. The fact of playing direct knockout rounds where the highlight of the event as it created a

competitive environment in itself with the right amount of sportsmanship by every player in his/her match.

“Milestones are not achieved without the hard work and dedication. It is indeed a great moment of pride and immense pleasure as we kick-started the session with a successful event accomplished with an active participation from all the schools within the campus.”

said the President of Sports Committee, Aishwarya Rai. It surely takes a lot for a committee to organize events which show participation in a huge number and sports committee of NMIMS, Navi Mumbai.

For the finals of the tournament witnessed two strong players, Shivam from PGDM, 2nd year and Prakhar from PGDM 1st year. The nail biting event ended with the winner being Prakhar who showed immense skills at his game and played with right spirits.

Prakhar and Shivam won the 1st and 2nd prize respectively.

“The Table Tennis event held was a huge success. Apart from being the first event organized by the Sports Committee in this session, every member of the committee worked perfect integrity and dedication. Without their efforts the event wouldn't have been this successful. Seeing the energy and participation of all the students made all of us more confident that we can have more events in the upcoming months.” said Kushagra Srivastava, Vice President of the Sports Committee.

Indeed, the institution looks forward more of such events with the support of the student council and the sports committee working with hitting the right balance of smart and good team work. In the generation of techno centric world sports remains to be only the few recreational activities left for people engage with without using any of their smart devices. At NMIMS, Navi Mumbai the council surely makes efforts to promote it to the core.
