

Report on ChatGPT session by SoC-ITY club

At the launch event of SOC-ITY Club, the very first event was conducted by Dr. Monika Sharma, Associate Professor, STME, Navi Mumbai, a prominent figure in the field of artificial intelligence. Dr. Sharma conducted an insightful workshop on how AI tools, including ChatGPT, can be harnessed to enhance business prospects and lead to successful careers. Her expertise and guidance provided attendees with a unique perspective on the transformative power of AI in various industries.

During her workshop, Dr. Sharma introduced the attendees to playground.ai, an innovative platform for hands-on experience with AI technologies. She specifically highlighted the potential of ChatGPT, a cutting-edge AI tool, in streamlining business operations, enhancing productivity, and driving innovation. Attendees had the opportunity to learn about the practical applications of ChatGPT, explore its capabilities, and gain insights into how it can be leveraged to solve real-world challenges.

The workshop by Dr. Monika Sharma served as a testament to the forward-thinking and educational opportunities that SOC-ITY aims to provide. It underlines our commitment to staying at the forefront of technological advancements and preparing our students for success in the ever-evolving digital landscape.
